Note: We are now being watched by the U.S. Government! We are their primary interest! They are watching us more and more every month passing by! The evidence is in the statistics data generated by our web host! We must be doing something right! 😊

It is discovered that the U.S. Government and U.S. Military is watching USWGO even more this month than any other month this year. It is found through the Webalizer statistics tool provided by the HostforWeb Cpanel interface.

According to the March statistics, even though it is only the 18th of March and the month hasn't completed the full cycle, the US Government and US Military are within the Top 10 global countries that are accessing the USWGO website entirely which includes the documentary website.

The U.S. Government has no doubt conducted surveillance on USWGO but this month is the most frequent and the month is not even over. This is the beginning of March 18 and we have until the 31st to see how many hits will be from the U.S. Government and the U.S. Military.

It is hard to know what kinds of IP Addresses were even considered US Government and US Military and whether the Department of Homeland Security, Federal Bureau of Investigation, Central Intelligence Agency, and others were apart of those IP Addresses accessing USWGO in the statistics.

The question is why is IP Addresses from the U.S. Government and the U.S. Military taking such a large interest in material and data from USWGO Alternative News? Because we are a political website? Because we are taking large steps against the New World
